

Amendments To the Claims

Claim 1 (Original): A liquid composition for controlling moss comprising:

- (a) a nitrogen containing fertilizer,
- (b) a surfactant or wetting agent, and
- (c) a metal containing salt.

Claim 2 (Original): The composition of claim 1, wherein the metal containing salt is a metal sulfate.

Claim 3 (Original): The composition of claim 2, wherein the metal sulfate is selected from the group consisting of copper sulfate, zinc sulfate, and iron sulfate.

Claim 4 (Original): The composition of claim 1, wherein the wetting agent is a non-ionic surfactant.

Claim 5 (Original): The composition of claim 1, which additionally includes an acidic pH adjusting agent.

Claim 6 (Original): The composition of claim 5, wherein said pH adjusting agent is a mineral or organic acid.

Claim 7 (Original): The composition of claim 1, wherein the fertilizer comprises isobutylendiourea.

Claim 8 (Original): An aqueous composition for spraying on lawns and putting greens to control moss growth comprising:

- (a) a nitrogen containing fertilizer,
- (b) a non-ionic surfactant wetting agent,
- (c) an iron sulfate, and
- (d) an acid.

Claim 9 (Original): The composition of claim 8 which contains a sufficient amount of each ingredient to provide from 0.1 to 8 pounds of nitrogen, (b) from 0.1 to 50 fluid ounces of surfactant, and (c) from 0.1 to 80 ounces (by weight) of iron sulfate per 1000 square feet of treatment area.

Claim 10 (Original): The composition of claim 9 wherein the amount of the acid in the composition is sufficient to bring the pH of the applied liquid to within the range of from 2 to 6.

Claim 11 (Original): An aqueous composition for spraying on lawns and putting greens to control moss growth comprising:

- (a) a slow-release isobutylenediurea fertilizer,
- (b) a non-ionic surfactant as wetting agent,
- (c) ferrous sulfate, and
- (d) acetic acid.
